

Studiengänge E-SC/Englisch – Advance online registration for all students

Please be aware that advance registration for all courses offered on Stud. IP. is mandatory.

All Students enrolled in the study programme English-Speaking Cultures (BA E-SC) are required to register for courses in advance and in a timely fashion! (Students enrolled in their first term need to register until the last Friday before the start of the lecture period)

Please register on Stud.IP:

You select a course of your choice and apply for participation. Your lecturer will either accept or reject your application, depending on the number of students permitted to take one class. The registration process is complete, when you receive a confirmation email. Courses offered in the winter term are available in our online course programme from July 30th onwards. Courses offered in the summer term are available from December 30th.

Registration deadlines on Stud.IP:

For courses offered in the summer term: March, 15th

For courses offered in the winter term: September, 15th

For courses offered for first semester students: last Friday before the start of the lecture period

Comment:

This registration process supports students and faculty members alike. For health and safety reasons the number of students who may register for one course is in some cases limited due to room size. Early registration therefore allows students to make alternative arrangements, i.e. to select another course of their choice before the start of the lecture period.

Registration for Academic Exchange students (Erasmus, Free Mover, international students):

We would like to advice academic exchange students to register for courses via Email. Please identify the relevant faculty member or lecturer and send your email registration request directly to the faculty member offering the course you wish to join. Please follow the link for a detailed list of all contact details: <http://www.fb10.uni-bremen.de/anglistik/personal.aspx>
